Austin Bless  
Jersey Village City Manager

Re: Jersey Village Letter of Interest

Dear Austin:

We are excited to send this letter expressing interest in your project to build a professional baseball stadium in Jersey Village, TX. The American Association is committed to expansion in Texas and potentially surrounding states and Jersey Village fits well within our plans for expansion from 12 to 18 by 2025. As you know, we have one American Association team already in Cleburne, TX with aspirations for new stadium construction in other Texas cities beyond Jersey Village. Those conversations with other cities are ongoing. Jersey Village's effort being put forth on a mixed use development is innovative and will put the city apart from all surrounding communities by creating a cultural platform with the baseball stadium. We have seen this plan play out in the American Association in cities such as Milwaukee (Franklin, WI) and Chicago (Rosemont, IL) with great returns on investment.

We are excited to explore this opportunity with you in the coming months and excited about the potential of adding Jersey Villages to our league geography.

Sincerely,

Joshua Schaub  
Commissioner
